

Compte rendu du Workshop 3 :

The screenshot shows the VS Code editor with a project named 'waiting_room_app'. The file explorer on the left shows the project structure, including 'main.dart' and 'waiting_room_manager_test.dart'. The editor is open to 'waiting_room_manager_test.dart', which contains a Dart test file. The test file has a main function and a test case. The test case is failing with an error: 'The method 'nextClient' isn't defined for the type 'WaitingRoomManager''. The error message is displayed in the Output window at the bottom. The error message is: '00:01 +0: .../waiting_room_app/test/waiting_room_manager_test.dart test/waiting_room_manager_test.dart:35:13: Error: The method 'nextClient' isn't defined for the type 'WaitingRoomManager'. - 'WaitingRoomManager' is from 'package:waiting_room_app/waiting_room_manager.dart' ('lib/waiting_room_manager.dart'). Try correcting the name to the name of an existing method, or defining a method named 'nextClient'. manager.nextClient();'. The error is highlighted in red in the Output window.

The screenshot shows the VS Code editor with the same project. The file explorer on the left shows the project structure. The editor is open to 'waiting_room_manager_test.dart'. The test file is the same as in the previous screenshot. The error message in the Output window is different: '00:01 +0 -1: loading C:/Users/AMENALLAH/AndroidStudioProjects/workshop2/waiting_room_app/test/waiting_room_manager_test.dart [E] Failed to load "C:/Users/AMENALLAH/AndroidStudioProjects/workshop2/waiting_room_app/test/waiting_room_manager_test.dart": Compilation failed for testPath=C:/Users/AMENALLAH/AndroidStudioProjects/workshop2/waiting_room_app/test/waiting_room_manager_test.dart: test/waiting_room_manager_test.dart:35:13: Error: the method 'nextClient' isn't defined for the type 'WaitingRoomManager'. - 'WaitingRoomManager' is from 'package:waiting_room_app/waiting_room_manager.dart' ('lib/waiting_room_manager.dart'). Try correcting the name to the name of an existing method, or defining a method named 'nextClient'. manager.nextClient();'. The error is highlighted in red in the Output window.

The screenshot shows a terminal window with the command 'flutter test' and its output. The output is: '00:02 +5: All tests passed!'. The terminal window is titled 'PS C:\Users\AMENALLAH\AndroidStudioProjects\workshop2\waiting_room_app> flutter test'.
